

July 2019

Monmouth County CARE Inc.
1601 NJ-35 #69
Middletown, NJ 07748

Dear Concerned Business Owner,

Today everybody knows someone affected by the opioid epidemic. We continue to have loved ones and people in our community's dying from overdoses. Which are preventable with proper tools and educations.

Unfortunately, New Jersey looks like we may have another year of 2500 plus overdose fatality's. One overdose is way too much but 2500 plus overdoses is unimaginable. We at MC CARE are actively working with our public that are using drugs. We are trying to give them lifesaving tools. We need your help to make our efforts go even further!

You can help us today help our community that continues to struggle. Your support is crucial to our efforts to help fight the overdoses in Monmouth County and all of New Jersey.

If you're able, we'd love if you could make a donation. This would be a huge in helping us achieve our mission of trying to slow the overdoses in the state of New Jersey.

Thank you in advance for your contribution. Your donation will go towards helping to create change in drug policy. A big part of the donation goes to help us get outreach supplies to the people that need them (Narcan, Fentanyl test strips, sterile supplies, blankets etc.).

Here are the ways you can make a donation:

- Make a donation online at www.mccareinc.org
- Call us at (908-247-7757)
- Send a check or we can stop by and pick up the donation.

Thank you again!

Sincerely,

Vincent DiGioia- Laird

Director
